Publications with authors and co-authors from Jena Bioscience

**Internalization of nucleoside triphosphates**

**Uptake of peptide and proteins**

**Recommended Books and Special Issues of Journals**

**Recommended Reviews**

**General Reviews**

**Uptake Mechanisms**

Selected References:
CPP-mediated Protein and nucleic acid internalization

Release from Endosomes

Formation of non-covalent complexes

Cell and tissue selectivity

Side Reactions and Cytotoxicity

Preclinical and Clinical Studies

Use of dendrimers and nano-particles
